Summary

A basic snap together housing for the Freenove ESP32-S3-WROOM CAM board.

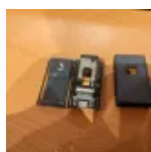

[Hobby & Makers](#) > [Electronics](#)

Tags: [cameramount](#) [esp32](#) [esp32cam](#) [esp32case](#) [esp32s3](#)

The case fits this board: https://github.com/Freenove/Freenove_ESP32_S3_WROOM_Board

One M4 heat/threaded insert is needed if you want to mount the case to something. I printed the case in PLA, including a custom bracket, for use in my Creality K1-SE for monitoring prints.
